

The timber treatment operations of

Bond Timber

Trerulefoot, Saltash, Cornwall PL12 5BW

have been assessed and certified as meeting the requirements of the Wood Protection Association

Benchmark Quality Scheme

for the preservative impregnation of the softwood components listed below in accordance with the standards and practices defined in the WPA Manual - Industrial Wood Preservation:

Pine, larch and Douglas fir fence posts preservative treated in accordance with **BS8417 for Use Class 4** (ground contact) applications desired service life of **15 yrs.**

Pine fence posts preservative treated in accordance with **BS8417 for Use Class 4** (ground contact) applications desired service life of **30 yrs.**

Detailed clarification of the scope of the this certificate and the applicability of the Benchmark quality scheme is available from the Wood Protection Association.

This scheme does not confirm compliance of the preservative used with British Standard or other specifications - that is the responsibility of the preservative manufacturer.

This certificate of conformity is valid from the date indicated for twelve months and remains valid subject to satisfactory surveillance visits.
